

## Refill Guideline :

- 1) Turn the stamp upside down so that you can see the foam (text, lettering, etc).
- 2) Drips a few drop of ink on the content area only.
- 3) Let the stamp upside down about 2-3 minutes until the ink is absorbed.
- 4) Repeat again step 3 until the absorbed energy is slow, means the foam is full of ink.
- 5) After ink been totally absorbed, clean up the exceed ink around the image area with tissue paper.
- 6) Leave it stand upside down few minutes for airing dry.
- 7) Repeating stamp on rough paper until you get the clean and clear images before your formally use.
